

CAD-O-MANIAC

(Get Mad in "CADD")

DESCRIPTION

All that you need to do is to solve the given problem statement using your creative design skills. More simple and effective design is obviously given the first preference. Obviously the fastest and the finest finger win.

EVENT FORMAT

This event conducted in rounds of two, the first round tests basics of your Designing skills. In the next round shortlisted participants will be given a problem statement to show their expertise.

RULES

- Maximum of two members per team is allowed.
- Team members can be from different institutions.
- Competition will be conducted in 2 round.
- Participants have to bring their own laptop with preinstalled software.
- Call of judges will be the final.

Round 1: Basic Designing on AutoCAD

- Participants will be asked to draft the given design.
- Problem statement will be given at the time of the event.
- Design is to be completed within the given time duration (Max. 30mins).
- Platform for drafting will be AutoCAD 2010 or latest versions thereof.

JUDGING CRITERIA FOR FIRST ROUND

1. Design should be completed.
2. Drafting standard (dimension, units, precision, line weight etc.) should be accurate.
3. Minimum time taken is judged for second round selection.

Note: File should be submitted in pdf format to coordinator.

Round 2: 3D Designing on AutoCAD

- An object will be given at the time of the event. You have to make the design with your own imagination.
- Participants have to prepare 3D model using AutoCAD in given time (Max. 1 hr)

JUDGING CRITERIA

- Judging based on the aesthetics, design accuracy and time taken.

Note: Instructions given at the start of event will be final and it may differ from the above mentioned criteria. Event coordinator decision would be the final.
